

Chlorine-Based Dish Sanitizers – with GFS product codes

All dish-machine chemicals must be purchased from Gordon Food Service (GFS). Work with your house food steward to get a discounted rate and online ordering using our SBA account. You can set up regular GFS truck deliveries to your house or you can order to a GFS retail store and pick up there.

Low-Temp Detergent

280585 – One 5-gallon pail

671444 – Case of four 1-gallon jugs

Rinse Aid

256463 – One 5-gallon pail

241318 – Case of four 1-gallon jugs

Chlorine Test Strips

818674 – One roll

Sanitizer E.S.

666815 – Case of four 1-gallon jugs

Only use 1-gallon containers for the Sanitizer E.S. as the chlorine will break down too quickly for co-ops to be able to use the 5-gallon restaurant containers.

Delimer – For Cleaning Only

567035 – Case of four 1-gallon jugs

Do NOT mix with Sanitizer E.S. or bleach as it will create dangerous toxic gas.
